DESIGN & SOLUTIONS

MADE IN ITALY

FLEX - CONTACT PREVENTION / SOCIAL DISTANCE

Thanks to the synergy between Design and functionality, Flex created the range of protective solutions for the world of Hairdressers. The purpose of these solutions is to guarantee the security and protection of operators and customers. The Tendiflex post and the partitions guarantee safety inside the spaces while maintaining the elegance of the environment.

- 1** TENDIFLEX SPORT ;
- 2** PROTECTIVE PARTITION FOR DESK/RECEPTION;
- 3** FREESTANDING PROTECTIVE PARTITION.

1 TENDIFLEX® SPORT

Contact prevention / Social distance

The original TENDIFLEX SPORT post with retractable belt represent the ideal solution to handle the environments with intense pedestrian traffic.

The sporty design and the special ultra-resistant and ultra-flat base makes them unbeatable in terms of durability and robustness, while the extendable belt is equipped with a magnetic tape end to fulfill security rules.

The TENDIFLEX SPORT post has a practical shockproof transparent message holder panel, fixed above the upright and used as a directional support or to communicate information to the customer.

This system allows you to have a communication that can be updated in a few seconds, guaranteeing customers effective service indications.

MAGNETIC TAPE END TYPE 2

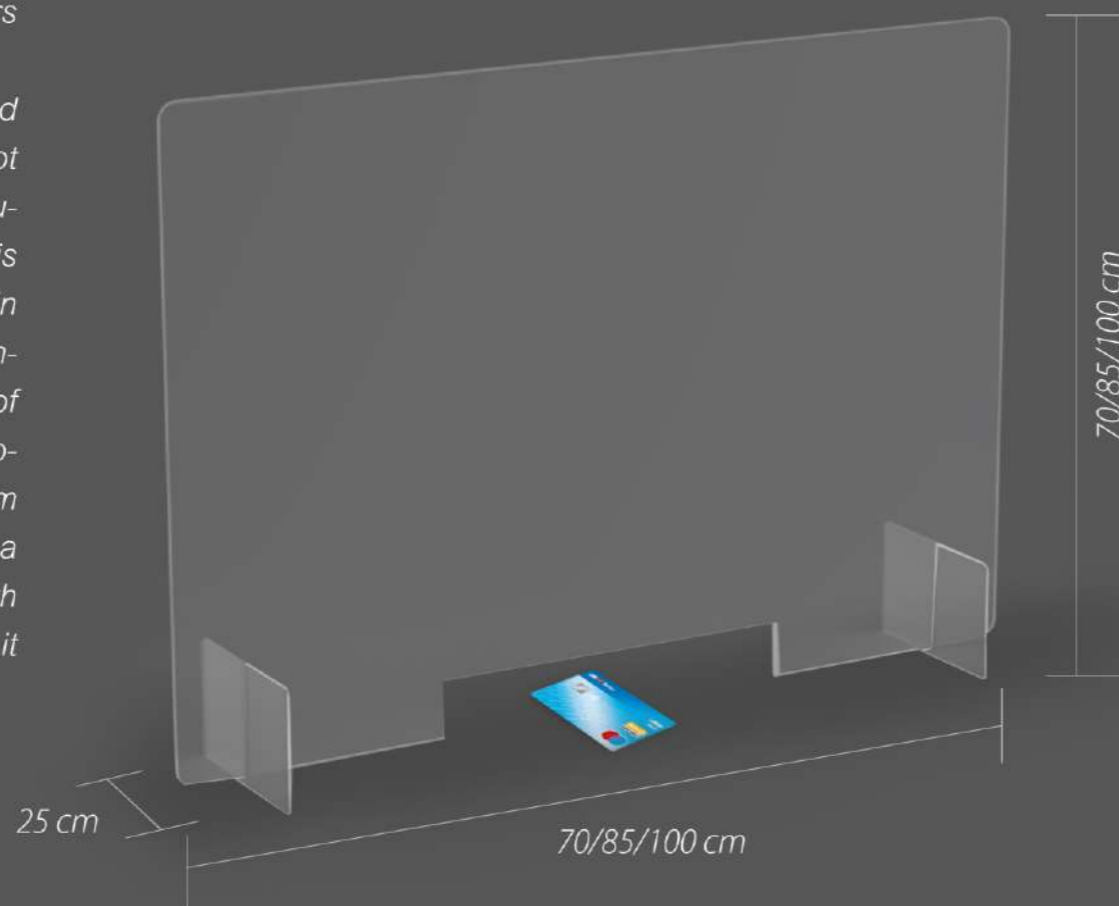

The magnetic tape end is ideal especially in dangerous situations as it allows a simpler and faster release of the belt, ensuring maximum security.

2 PROTECTIVE PARTITION

Contact prevention / Social distance

The Flex protective partition is a new product which, placed at the counter, at the cash desks or at the desk of an office or a shop, helps protect workers from direct contacts with the public.

The Flex protective partition is provided by a slot created for the passage of not bulky parcels or documents. It is a solution in transparent methacrylate that is perfectly suitable to the environment in which it is inserted. Its standard dimensions are 85 cm of base and 70 cm of height and has been designed to protect the customer and the operator from any direct contact. The product has a thickness of 4 mm and is equipped with two supporting pedestals that make it stable and resistant.

MATERIAL: TRANSPARENT METACRYLATE
TOTAL WEIGHT: ~3 Kg

ACCESSORY:
SURFACE SANITIZING SPRAY (not included)
Pocket-sized, alcohol-based, fast-acting
How to use: shake the bottle and spray on the surfaces to be treated
It does not require further cleaning with a cloth.

A product of great utility and adaptability that does not require installation, created to meet the needs of our customers.

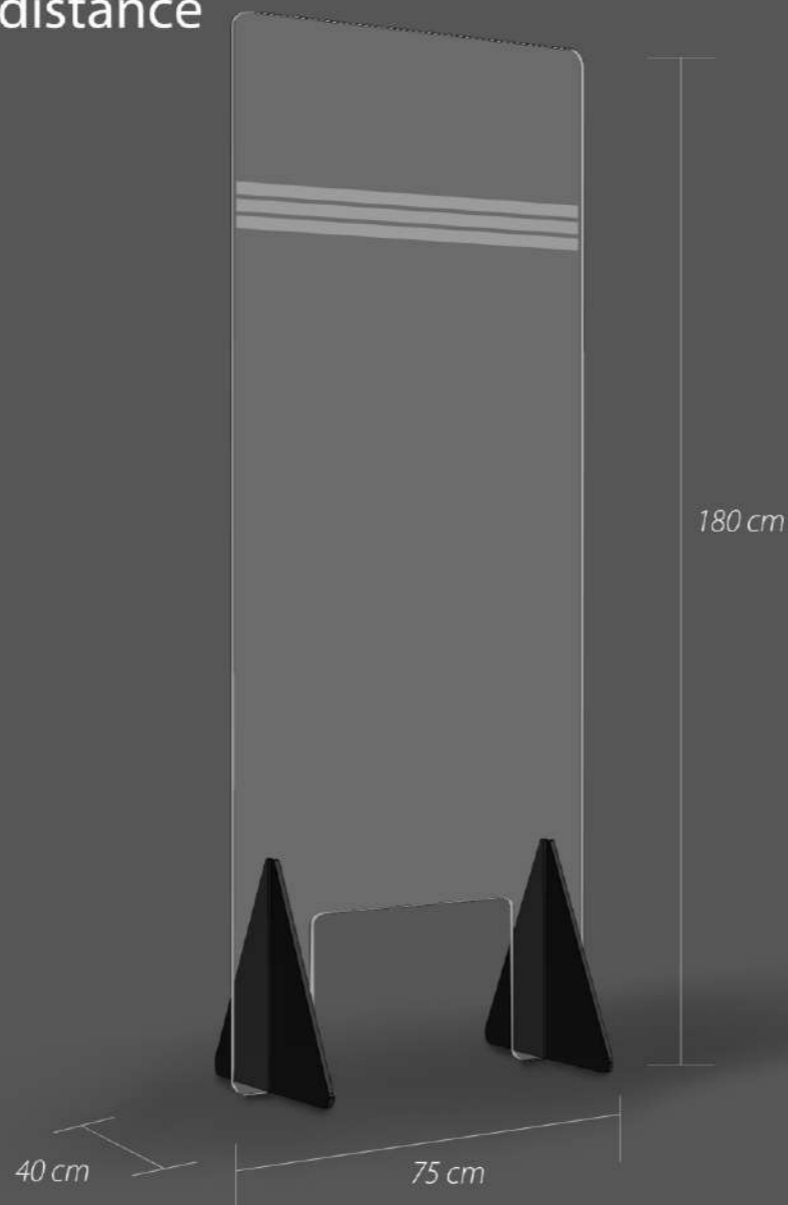

AVAILABLE SIZES: 85x70 cm - 70x85 cm - 100x70 cm - 70x100 cm
*Customized dimensions on request

3 FREESTANDING PROTECTIVE PARTITION 75

Contact prevention / Social distance

The Flex protective partition freestanding is a new product from the Flex family which, suitably positioned, helps protect workers and the public from direct contact. The protective partition Flex is equipped with a lower slot created for the passage of tools useful for cleaning the floor. It is a solution in transparent methacrylate which is suitable for the environments in which it is inserted. Its standard dimensions are 75 cm in base and 180 in height and it has been designed to protect the customer and the operator, respecting the distance established by law.

The product has a thickness of 10 mm and is equipped with two pedestals and a polyethylene support which make it stable and antistatic.

MATERIAL: TRANSPARENT METACRYLATE AND POLITENE BASES

TOTAL WEIGHT : 20 Kg

ACCESSORY:

SURFACE SANITIZING SPRAY (not included)

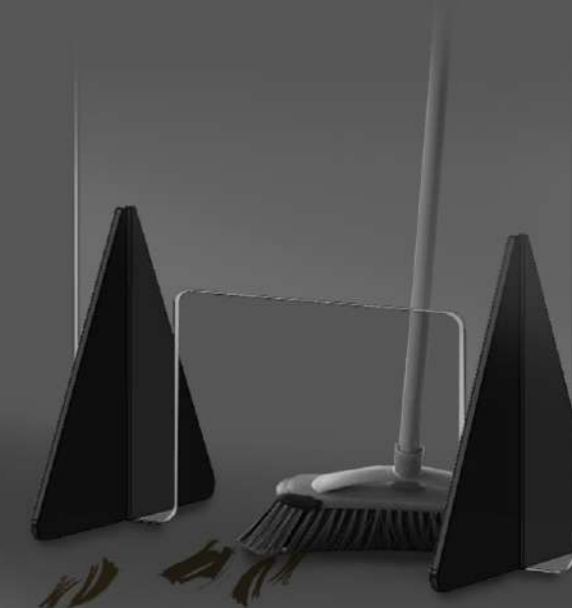

Pocket-sized, alcohol-based, fast-acting

How to use: shake the bottle and spray on the surfaces to be treated
It does not require further cleaning with a cloth.

Alternatives

Contact prevention / Social distance Line

TENDIFLEX® SPHERE

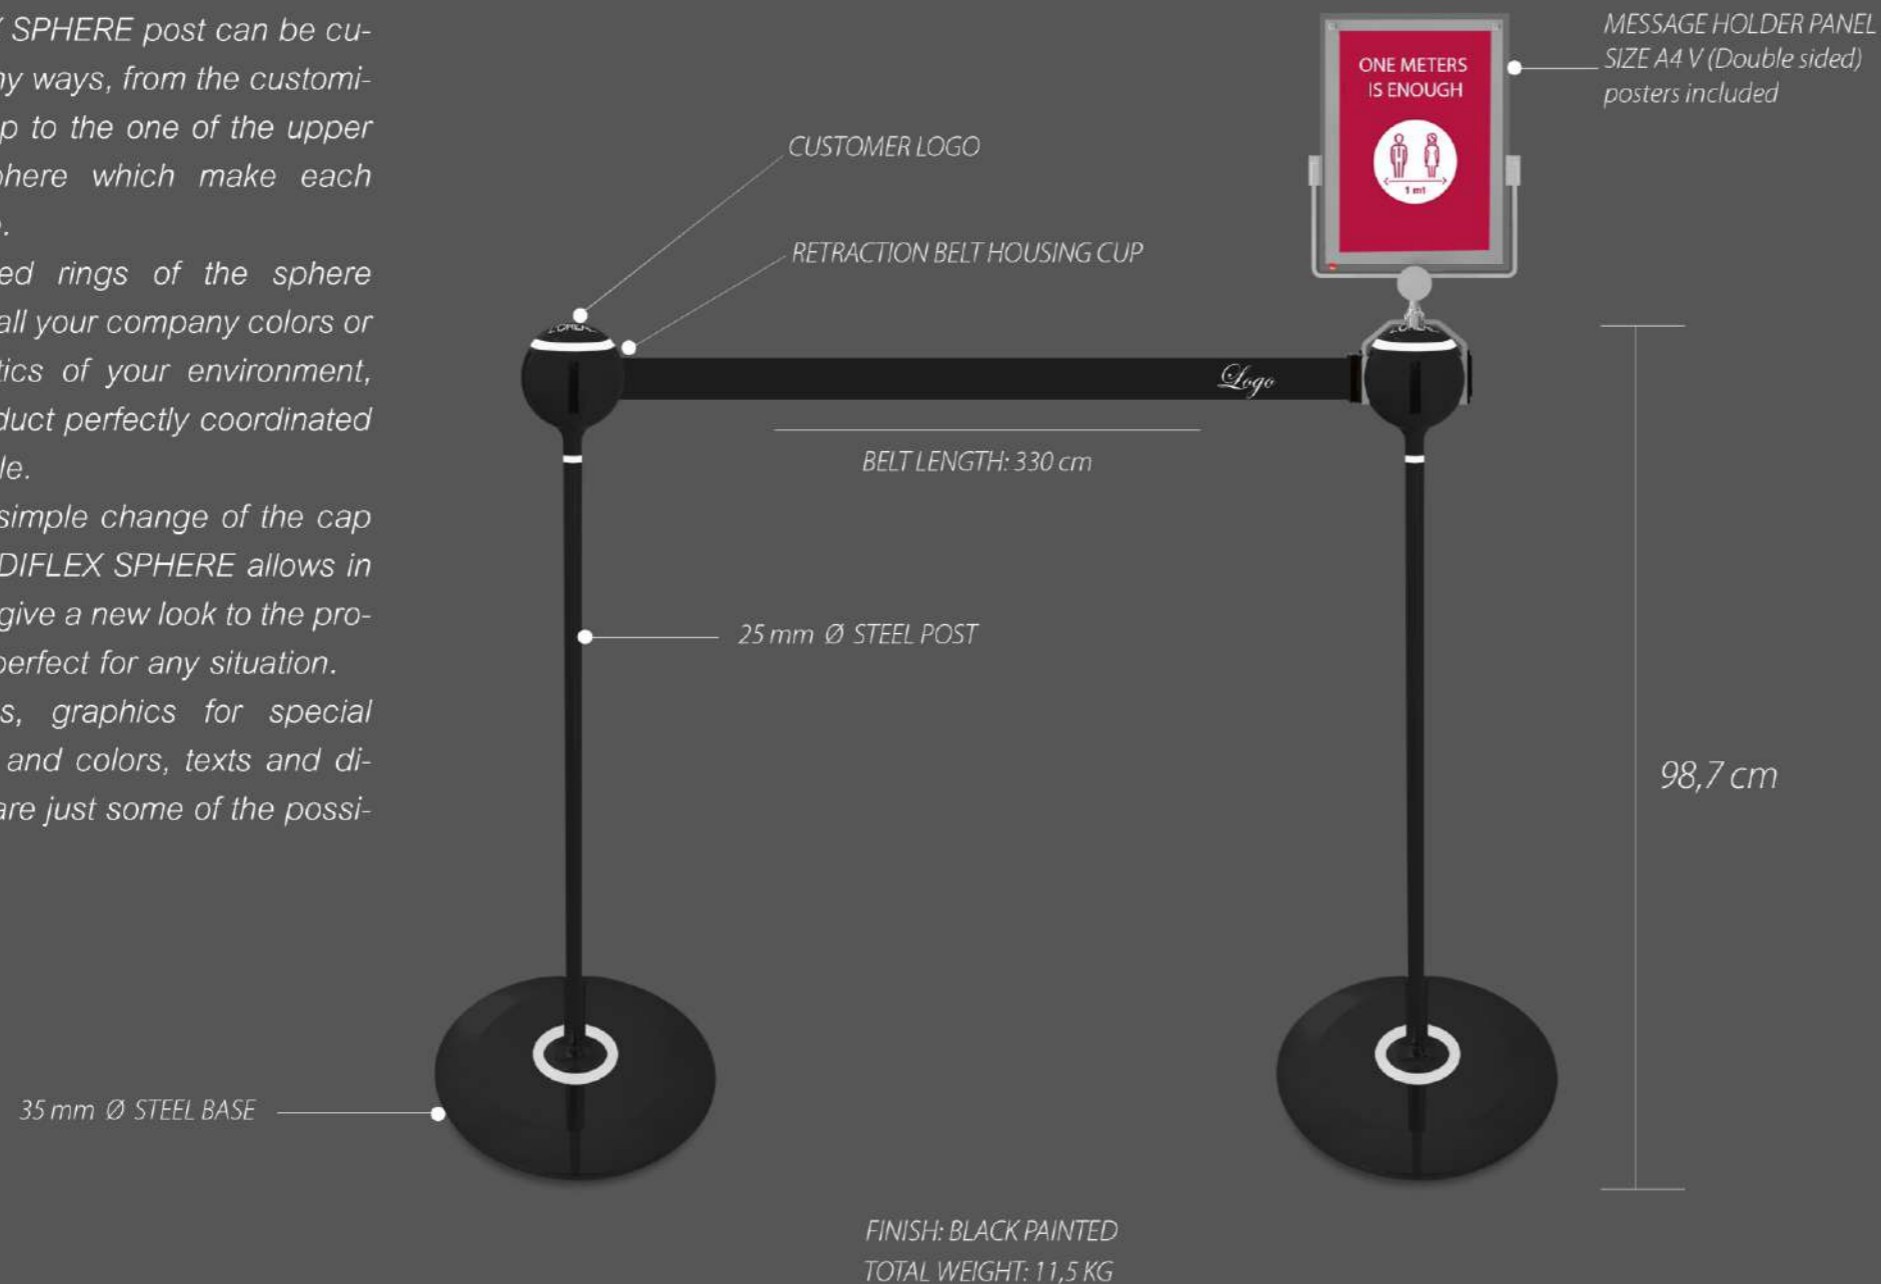

Contact prevention / Social distance

The TENDIFLEX SPHERE post can be customized in many ways, from the customization of the cap to the one of the upper ring of the sphere which make each SPHERE unique.

The personalized rings of the sphere allow you to recall your company colors or the characteristics of your environment, making the product perfectly coordinated and recognizable.

The quick and simple change of the cap of the new TENDIFLEX SPHERE allows in few seconds to give a new look to the product making it perfect for any situation.

Company logos, graphics for special events, images and colors, texts and directional signs are just some of the possible uses.

MAGNETIC TAPE END TYPE 2

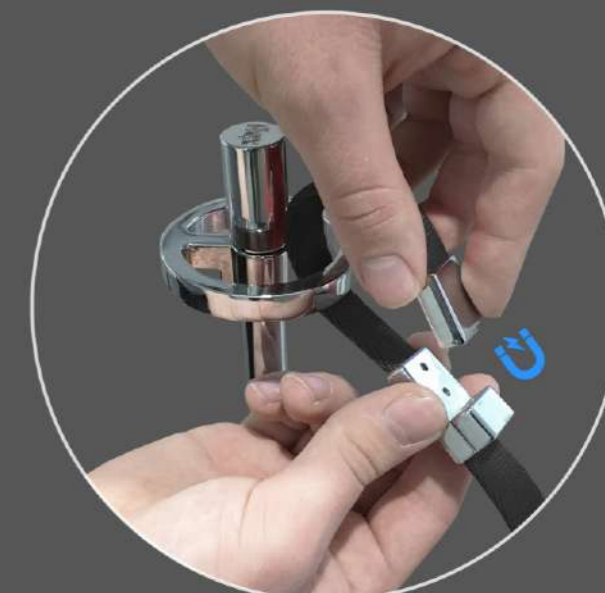

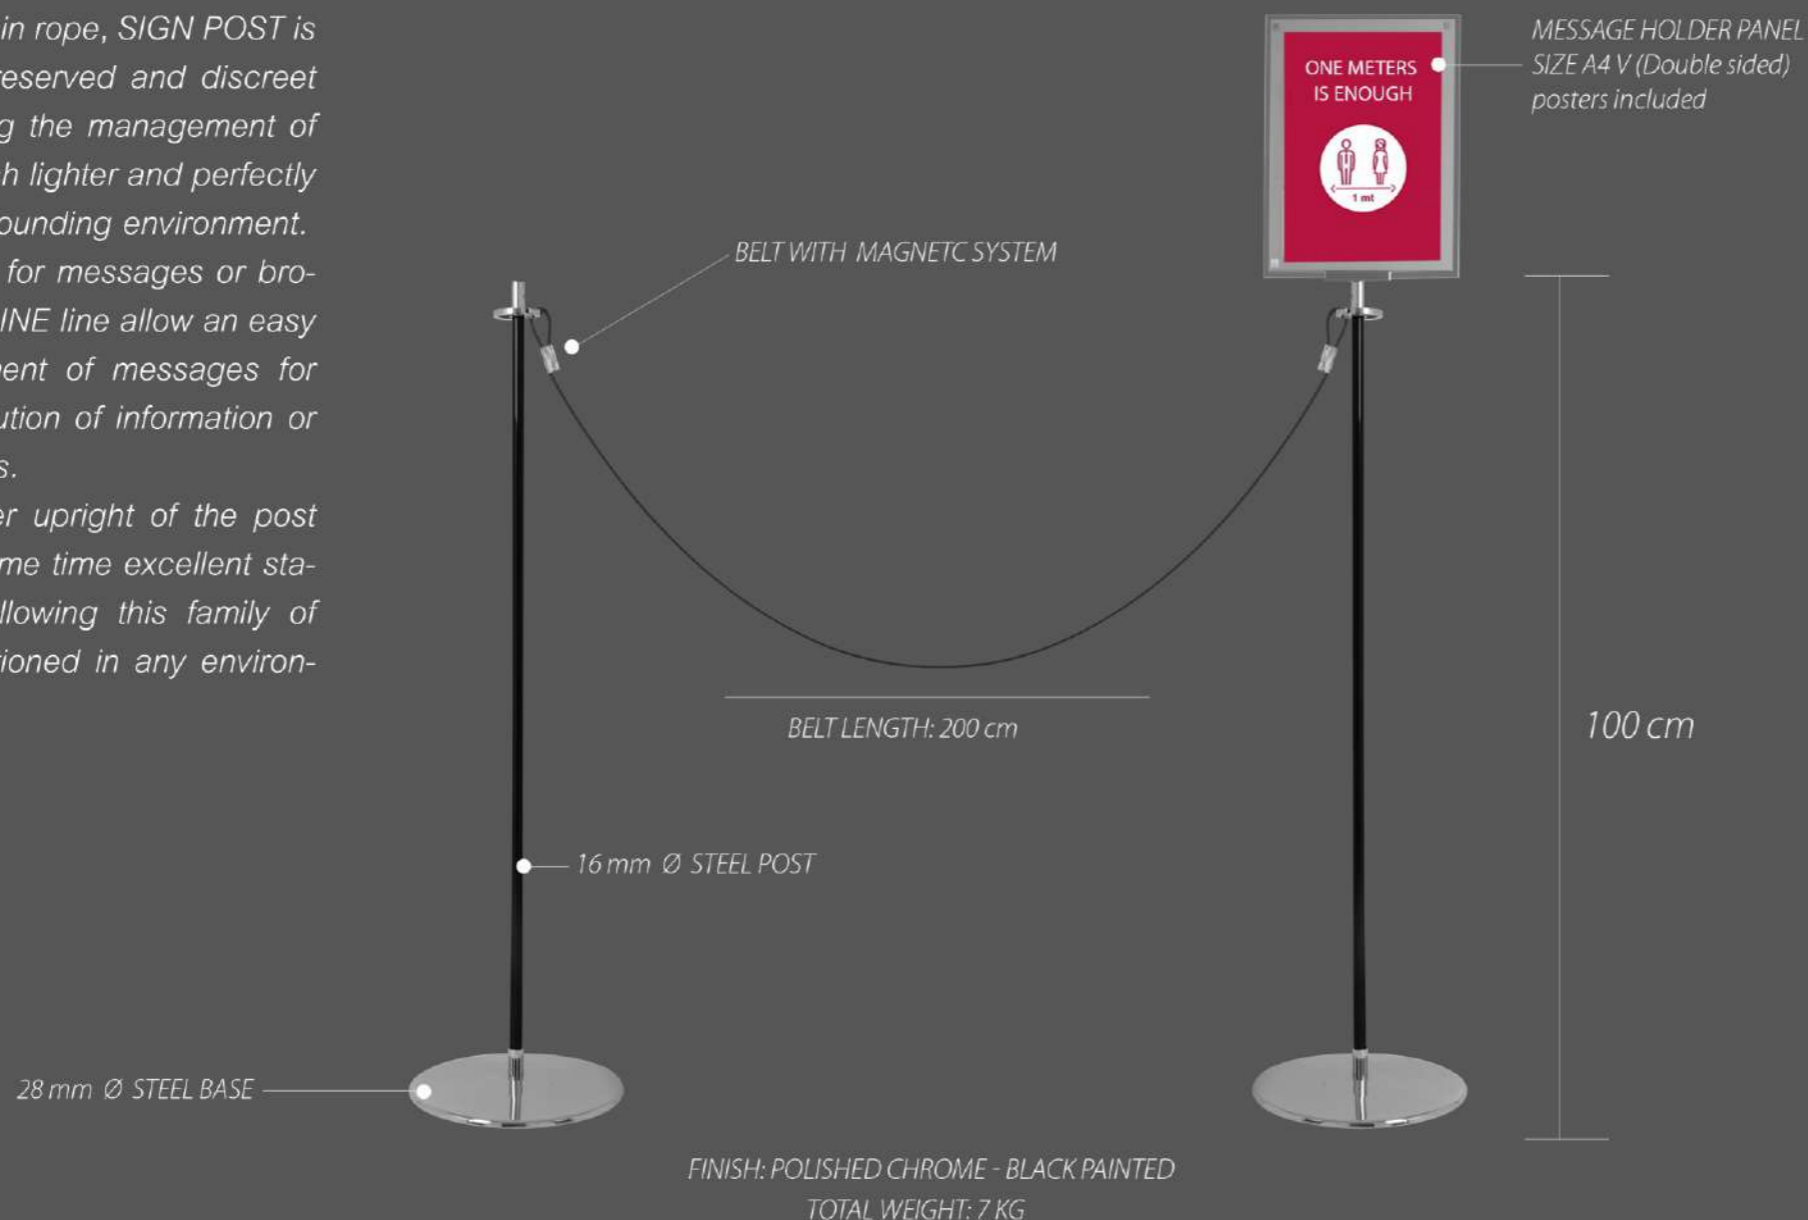

The magnetic tape end is ideal especially in dangerous situations as it allows a simpler and faster release of the belt, ensuring maximum security.

SIGN POST

Contact prevention / Social distance

Effectiveness and discretion at the same time. Thanks to the thin rope, SIGN POST is the perfect tool for reserved and discreet environments, making the management of pedestrian flows much lighter and perfectly merged with the surrounding environment. The practical panels for messages or brochures of the SIGN LINE line allow an easy and quick replacement of messages for clients or the distribution of information or advertising brochures. The slim and slender upright of the post guarantees at the same time excellent stability and design, allowing this family of products to be positioned in any environment.
